

# Data Inquiry as Activism: Using the DEI Staff Experience Survey to Ensure Accountability

## PRESENTER:

[Jillian Roth](#), Mama J Love Consulting

## DESCRIPTION:

Learn how a trio of educational leaders just a year ago used the Praxis of Persistence to engage in a cyclical process of data inquiry as a strategy to activate multiple stakeholder voices. This workshop will build your understanding of what a 6-month arc of monthly stakeholder input looks and feels like as a structure to learn and co-create shared meaning through data; why it's vital; and how this model can be a launching pad into defining your school's diversity, equity, and inclusion pathway. The workshop will draw from one school's experience while sharing an array of protocols, tools, and resources used. We'll conclude with an invitation to explore how this model could be applied to your own setting. *Open to all participants.*

## TIME:

- 3:30pm – 4:20pm on Tuesday, March 26<sup>th</sup>
- 4:40pm – 5:20pm on Tuesday, March 26<sup>th</sup>
